### COMPANY SUMMARY

Founded in 2019, Southeastern Utility Services is a family-owned utility and vegetation management company based in Glencoe, AL. We partner with communities, utility companies, and private owners across the Southeast USA to maintain and enhance electrical infrastructure. From constructing substations and strengthening electrical systems to providing rapid storm response, our safety-first and client-centered approach ensures that the job gets done right. With expertise in both utility management and tree care, we deliver comprehensive solutions that keep the power on and the environment protected.

### DIFFERENTIATORS

- **Comprehensive Service Offering:** We seamlessly integrate utility management and tree care services.
- **Sustainability Commitment:** Emphasis on environmentally responsible practices and long-term sustainability.
- **Certified Professionals:** Our team includes OSHA-certified and licensed professionals, ensuring safety and quality.
- **Advanced Equipment:** We utilize cutting-edge tools and techniques for efficient project delivery.
- **Proactive Assessments:** Regular tree health and utility infrastructure assessments to prevent issues before they arise.
